

To,

Dear Sir/Madam,

Subject: Compulsory Informed Consent for Covid 19 Vaccines for Children

We introduce ourselves as a composite group of hundreds of thousands of concerned citizens, doctors, lawyers and parents.

By writing to you, we hope to garner your support, cooperation and engagement in securing a safe environment for our children.

In the light of scientific opinions and studies related to covid19 emerging from different parts of the world, it has become more imperative than ever before that we all come together and work for the larger interest of safety, protection, and benefit of our children.

Keeping this in mind, we as a society must insist on open public debates conducted by independent scientists and doctors who have no conflicts of interest.

Coming specifically to the recently announced proposal of vaccinating children against Covid 19, we have **grave concerns** that we would like to draw your attention to:

1. Children are not affected severely by Covid 19, as confirmed by many prominent scientists. According to latest sero surveys, all children in India have been exposed to it, and almost all of them have acquired natural immunity which is robust and long lasting.

Children have better immunity against Covid 19. Many scientists have attributed this to the fact that they have larger thymus glands and to the low presence of ACE2 receptors which impede the entry of the virus into cells of the nasal passages, and therefore children are not severely affected.

Our epidemiologists have time and again emphasized the necessity of reopening schools without vaccination.

The following information should be shared widely with parents, in order to allay their fears and offer them reassurance:

- Why Don't Kids Tend to Get as Sick From Covid-19?
<https://www.smithsonianmag.com/science-nature/why-dont-kids-tend-get-sick-covid-19-180978639/>
 - Article by eminent epidemiologist Amitav Banerjee
<https://www.mjdrdypv.org/article.asp?issn=2589-8302;year=2021;volume=14;issue=5;spage=477;epage=478;aulast=Banerjee;type=3>
 - What chances do children have against COVID-19? Is the answer hidden within the thymus? <https://www.ncbi.nlm.nih.gov/labs/pmc/articles/PMC7550201>
 - The National Technical Advisory Group on Immunisation advised the Centre that Covid-19 vaccination for children is not a priority.
<https://www.indiatoday.in/coronavirus-outbreak/vaccine-updates/story/covid-19-vaccine-for-children-not-a-priority-ntagc-centre-1890416-2021-12-21>
2. There is no availability of long-term safety data for Covid-19 vaccines, as the vaccines were developed at a never-before heard of pace, using a new experimental technology and they are being used under Emergency Use Authorization, which means that this is an ongoing global clinical trial pending full CDSCO and FDA approval. Whereas, there are safer methods to mitigate Covid-19, such as the AYUSH approved Ayurvedic protocol, Anandaiah's protocol and Homeopathic protocol for Covid-19.
<https://drive.google.com/file/d/1Hl76y7BwU8i57z5Z3xk8XbPvMzG366II/view?usp=sharing>
3. Adverse effects including deaths from these gene based experimental Covid-19 vaccines are being reported from across the world. Chances that DNA Technology based vaccine have carcinogenic life-threatening side effects are highlighted in a Washington Times article. One of the first children's vaccines in India ZyCov-D, is DNA based.
- <https://m.washingtontimes.com/news/2021/oct/28/applying-brakes-on-warp-speed-covid-19-vaccination>

- <https://medalerts.org/vaersdb/findfield.php?TABLE=ON&GROUP1=AGE&EVENTS=ON&VAX=COVID19&VAXTYPES=COVID-19&STATE=NOTFR&WhichAge=range&LOWAGE=12&HIGHAGE=18>
- VAERS-USA Covid Vaccine Data Show Surge in Reports of Serious Injuries, as 5-Year-Olds Start Getting Shots
<https://childrenshealthdefense.org/defender/vaers-cdc-covid-vaccine-data-injuries-5-year-olds/>

To see how devastatingly damaging and life-threatening the side effects of Covid-19 vaccines are, please follow these steps > Go to www.vigiaccess.org > Scroll to the bottom of the page and click – ‘I understand’ > Click ‘Search Database’ and type in ‘Covid-19 Vaccine’ and click Search > Click ADRs then click on each ADR for its details.

Keeping the above in mind, stringent and mandatory adherence to ‘Informed Consent’ is of utmost importance. These provisions were made keeping ethics and safety in mind. Experimental medical malfeasance carries serious legal liabilities.

- The Delhi High Court deferred the implementation of the ‘Measles and Rubella vaccine immunisation campaign’ (MR Vaccine) by the Delhi government stating that **vaccination cannot be administered “forcibly” and “without the consent of parents”**
<https://www.hindustantimes.com/delhi-news/hc-orders-deferring-mr-vaccine-campaign-in-delhi-after-parents-objection/story-IQ9L6q0vCiEwiimAWviSAP.html>)

Informed Consent is the bedrock principle on which most of modern research ethics rest... This is at the heart of the crucial ethical provision stated in the first words of the Nuremberg Code, and it remains equally compelling a half century later.

The principles enshrined in the Nuremberg Code came into being following the painstaking trials of those who participated in biological war crimes during the Nazi regime.

These codes were put in place to protect our bodily integrity.
<https://bioethics.nih.gov/sites/nihbioethics/files/bioethics-files/courses/pdf/2012/Grady2.pdf>

Japan is now labelling covid vaccine with warnings of dangerous and potentially deadly side effects such as Myocarditis. The country is reaffirming its commitment to ‘informed consent’ and adverse event reporting requirements, to ensure that all possible side effects are documented.

<https://rairfoundation.com/alert-japan-places-myocarditis-warning-on-vaccines-requires-informed-consent>

It would be very beneficial if we, along with your involvement insist on transparency regarding Covid-19 vaccine safety data, list of ingredients, their side effects and advisory on contraindications, with reference to all immunization / medical intervention / testing methods, as part of the medical informed consent process. This is a necessary requisite, as we receive news of large number of children across globe who have already lost their lives to the Covid-19 vaccines.

Please refer to the vaccine factsheets provided below to find out all of those conditions which make a person 'ineligible' for the vaccines.

Covishield Vaccine Factsheet:

Sputnik Factsheet:

https://drive.google.com/file/d/1Ro0Y8fI5tkH_5E59XO3SoYNGRJpnJx11/view?usp=sharing

Considering that the risk of vaccinating children is far higher than any benefit (if any), Indian Doctors for Truth along with 1200 + concerned citizens had written to the Prime Minister on 07-10-2021 with all the evidence, demanding that there be no vaccine roll out for children.

<https://awakenindiamovement.com/letter-to-honble-prime-minister-2-0>

Following the announcement of the vaccine rollout for children, eminent epidemiologist, Dr. Sanjay Rai from AIIMS, who had overseen the Covaxin trials on children, raised concerns about the unscientific decision. Please refer to his statements.

<https://www.msn.com/en-in/news/other/centres-decision-on-covid-vaccination-for-children-unscientific-senior-aiims-doctor/ar-AASanw4>

https://m.timesofindia.com/india/govts-decision-on-covid-vaccination-for-children-unscientific-senior-aiims-epidemiologist/amp_articleshow/88503932.cms

<https://www.youtube.com/watch?v=S6L9zwvZkik>

It is for us, parents, teachers, school administrators and the education departments, to take note of these warnings coming from eminent experts from across the world and not blindly participate in the vaccination drives for children.

We look forward to a symbiotic partnership with you, towards building a safe, transparent and healthy future for our children.

Yours Sincerely,

Concerned Citizens of India

Nine Reports on -12- 15 year olds who have died after a Covid-19 injection. Reported to VAERS (US) through 27th August 2021:

1. Death of a 15 year old girl: Cardiac Arrest – 3 to 4 days after second dose of Moderna injection. “I do not know the exact date of the first or second Moderna Vaccine. I am the PICU attending who cared for the patient after her cardiac arrest which we believe was about 3-4 days after her second Moderna Vaccine” <https://medalerts.org/vaersdb/findfield.php?IDNUMBER=1187918>
2. Death of a 15 year old boy: Cardiac Failure – 2 days after Pfizer injection “Heart Failure” Died 2 days after vaccination <https://medalerts.org/vaersdb/findfield.php?IDNUMBER=1242573>
3. Death of a 15 year old boy: Unexplained Death after Pfizer injection “Unexplained death within 48 hours” <https://medalerts.org/vaersdb/findfield.php?IDNUMBER=1382906>
4. Death of a 13 year old boy: Found deceased– 1 day after Pfizer injection “Flu like symptoms for 2 days then was found deceased” <https://medalerts.org/vaersdb/findfield.php?IDNUMBER=140684>
5. Death of a 13 year old boy: Cardiac Arrest – 17 days after Pfizer injection “Patient is a 13-year-old previously healthy male who was admitted after out-of-hospital cardiac

arrest found to be in the context of large cerebellar haemorrhage secondary to brain lesion"

<https://medalerts.org/vaersdb/findfield.php?IDNUMBER=1431289>

6. Death of a 13 year old boy: Unknown cause of death 3 days after Moderna injection "Died three days after vaccine; 13 year old boy dies three days after the Moderna vaccine"
<https://medalerts.org/vaersdb/findfield.php?IDNUMBER=1463061>

7. Death of a 15 year old boy: 4 days after second dose of Pfizer injection "Child collapsed on soccer field while playing soccer at a local camp. CPR was initiated immediately. Patient had his second covid vaccine on Sunday 7/18/2021. Died 7/22/2021"
<https://medalerts.org/vaersdb/findfield.php?IDNUMBER=1498080>

8. Death of a 13 year old girl: 26 days after Pfizer injection "patient arrived in ventricular tachycardia via EMS, but responsive. deteriorated to pulseless ventricular tachycardia, PEA and ultimately death".
<https://medalerts.org/vaersdb/findfield.php?IDNUMBER=1505250>

9. Death of a 15 year old girl: Cardiac Arrest- 27 days after Pfizer injection "A 15-year-old female patient received (COMIRNATY), on 11Jul 2021 07:30 (at the age of 15-year-old) as dose 1, single for COVID-19 immunization. The patient died on 07Aug2021. An autopsy was not performed. Cause of Death: Anoxia cerebral and Cardiac arrest"

Vaccine Kills more children than Covid-19-A Columbia University study finally gets the best estimate thus far on the Vaccine-induced Fatality rate. . .and survey says, the COVID "vaccine"

is at least 4 times, and as much as 10 time more fatal than the COVID-19 virus itself.
